SECTION I GENERAL CONSIDERATIONS AND PLANNING GUIDELINES

PURPOSE

Emergencies in schools are defined as undesirable events that occur and have the potential to cause injury or illness to members of our school community or disrupt the orderly educational process. They range from acts of bullying or harassment to catastrophic natural or man-made events. Emergency management is the discipline of dealing with and avoiding risks. It is a discipline that involves preparing for an emergency situation or disaster before it occurs as well as supporting and rebuilding from the emergency after natural or human-made disasters have occurred.

Emergency management in our schools is the continuous process by which our staff, scholars, administrators, parents, school groups, emergency responders and our community manages hazards in an effort to avoid or mitigate the impact of disasters resulting from hazards. Preventive measures and good planning will reduce the likelihood that emergencies will occur and allow us to address those that do in an expeditious and effective manner.

Charter Schools are required to develop district-wide school safety and emergency management plans designed to prevent and effectively manage such events to minimize the effects of serious incidents and emergencies. These plans also facilitate the coordination of the School with local and county plans and resources when incidents and emergencies occur.

The district-wide plan is responsive to the needs of all campuses in the School and is consistent with the more detailed building-level emergency plans. Schools/Districts are vulnerable to a wide variety of acts of violence; and natural and manmade disasters. To address these threats, the State of New York has enacted the Safe Schools Against Violence in Education (S.A.V.E.) law. Project S.A.V.E. is a comprehensive planning effort that addresses prevention, response, and recovery with respect to a variety of emergencies in schools.

The Storefront Academy Charter School supports the S.A.V.E. legislation. As such, the Principal, Board of Education, and the entire School staff encourages and advocates on-going district-wide cooperation in support of Project S.A.V.E.

The Principal or Designee (see [State Requirements](#)), will serve as the School's Chief Emergency Officer (CEO)⁷ whose duties shall include, but not be limited to:

1. Coordination of the communication between school staff, law enforcement, and other first responders;⁸

3. Ensuring staff understanding of the district-wide safety plan;¹⁰
4. Ensuring the completion and yearly update of building-level emergency response plans for each school building.¹¹ The CEO will require each building principal to maintain a Building-level Emergency Response Plan in compliance with Commissioner of Education Regulation 155.17(2). Each plan should be updated annually with the assistance of the Building Emergency Response Team (BERT). The plan shall provide for lockdown, lockout, sheltering, evacuation, early dismissal, fire and other emergency planning and notification (when necessary) to scholars and staff, annual drills and exercises, and coordination with local and county emergency preparedness administrators. These plans shall be submitted to the School's Safety Team for annual approval and incorporation into the overall District-wide Safety and Emergency Management Plan.
5. Assisting in the selection of security related technology and development of procedures for the use of such technology;¹²
6. Coordination of appropriate safety, security, and emergency training for the school and school staff, including required training in the emergency response plan;¹³
7. Ensuring the conduct of required evacuation and lockdown drills in all school buildings as required by Education Law section 807;¹⁴ and
8. Ensuring the completion and yearly update of building-level emergency response plans by the dates designated by the commissioner.¹⁵
9. Ensures protocols for responding to a declared state disaster emergency involving a communicable disease are substantially consistent with the provisions of Section 27-C of the Labor Law.

⁷ 155.17(1)(c)(xix) the designation of the superintendent, or superintendent's designee, as the district chief emergency officer whose duties shall include, but not be limited to:

Protocols developed in the District-wide School Safety and Emergency Management Plan will guide the development and implementation of Building-level Emergency Response Plans.
2. All School building plans have been standardized to the extent possible so that leadership decisions are consistent and leaders may be interchangeable as necessary. The training and expectations set at the school level are applicable to all building team members.
3. In the event of an emergency or violent incident, the initial response at an individual school will be by the Building Emergency Response Team.
4. Once the Principal and/or their designee are notified, the School Emergency Response Team may be mobilized to respond, and when appropriate, local emergency officials will be notified. All will follow the emergency management protocols and practices outlined in the National Incident Management System (NIMS) and will practice Incident Command System (ICS) techniques to better manage these events.

PLAN REVIEW & PUBLIC COMMENT

1. The District-wide Safety and Emergency Management Plan shall be monitored and maintained by the School Safety Team. ²¹Each board of education, chancellor or other governing body or officer shall ensure that a copy of each building-level emergency response plan and any amendments thereto, is filed with the appropriate local law enforcement agency and with the State Police within 30 days of its adoption, but no later than October 15, 2016 and each subsequent October 15th thereafter. Building-level emergency response plans shall be confidential and shall not be subject to disclosure under article six of the Public Officers Law or any other provision of law.

SECTION II RISK REDUCTION/PREVENTION AND INTERVENTION

PREVENTION AND INTERVENTION STRATEGIES²²

The School utilizes a variety of intervention strategies to reduce risk and prevent critical incidents.

1. The School utilizes trained multidisciplinary Threat Assessment Teams at each building to evaluate threats and implement the appropriate mitigation strategies. The School provides support and record keeping for the activities of each team.
2. Any utilized school safety officers and other security personnel are trained annually with the assistance of one or more of the following collaborative relationships:
 - Emergency Responders
 - Regional BOCES
 - School Consultants
3. Training for school staff working in an incident control capacity may include:
 - Individual and group de-escalation techniques
 - Non-violent conflict resolution skills and
 - Peer mediation
4. The School may provide de-escalation techniques and nonviolent conflict resolution training to other staff annually. Each building has some staff trained in nonviolent conflict resolution.
5. All staff, scholars, and their parents will receive a summary of this policy prohibiting intimidation and bullying: at the beginning of the school year, as part of the student handbook and/or information packet, as part of new student orientation, and as part of the school system's notification to parents.
6. The school will make reasonable efforts to keep a report of bullying confidential and the investigation results. Staff who witness acts of bullying shall take immediate steps to intervene when safe to do so. People witnessing or experiencing bullying are strongly encouraged to report the incident; such reporting will not reflect on the target or witnesses in any way.
7. Training may be available during staff development sessions, on conference days and via on-demand web-based training modules.

²² 155.17(c)(1)(iii) appropriate prevention and intervention strategies, such as:(a) collaborative arrangements with State and local law enforcement officials, designed to ensure that school safety officers and other security personnel are adequately trained, including being trained to de-escalate potentially violent situations, and are effectively and fairly recruited;(b) nonviolent conflict resolution training programs;(c) peer mediation programs and youth courts; and(d) extended day and other school safety programs

8. Procedures relating to building security including utilization of staff and security equipment are as follows:²³
 1. All authorized staff members are expected to carry their classroom/office keys/swipe cards at all times.
 2. All staff members are expected to wear School-issued photo identification badges.
 3. After the designated start time of the school day, each school will be appropriately secured.
 4. All visitors must report to each building's designated single point of entry and sign in before proceeding further into the building.
 5. All contractors assigned to work in any building must first be authorized by the Facilities Department to receive an identification badge, which must be visible at all times when workers are on school property. All deliverables and delivery personnel must first be authorized by the Facilities Department, prior to delivery. An exception for regular food service deliveries may be made after the vendor has been authorized for the school year.
 6. The School has executed Memorandums of Understanding (MOU) with Security Providers as required by NYS Regulation.²⁴
 7. Extended day and other school safety programs - The campus buildings and facilities provide a valuable resource to our scholars and community after the conclusion of the school day. The following are strategies are utilized during after-school hours:
 1. To the degree possible, access to areas of the school building is limited to only those needed for activities.
 2. Some buildings may use a modified point of entry.

The School continually investigates other security measures and conducts staff development training to ensure schools are as safe as possible. Security measures include:

- a. Security personnel
- b. Surveillance cameras
- c. Door-lock (buzzer) entry systems
- d. Portable Radios
- e. Alarm Systems
- f. Keypad or swipe entry systems
- g. Single or limited points of entry

IMPROVING COMMUNICATION WITH SCHOLARS

Every morning, teachers begin the day with morning meetings, during which scholars are allowed to express their thoughts and concerns and share “their mood meters.” Teachers are trained to establish a

²³ 155.17(c)(1)(xi) policies and procedures relating to school building security, including, where appropriate, the use of school safety officers and/or security devices or procedures;

²⁴ 155.17(c)(1)(xvi)(a) Such written contract or memorandum of understanding shall be incorporated into and published as part of the district safety plan; and

positive school and classroom culture, to reward scholars when they show thoughtfulness and respect, and to address even minor incidents of disrespect. Teachers and Principals must supervise bullying “hot spots” (lunch, recess, bathrooms) and create ways to report potentially violent incidents safely. Storefront Academy encourages scholars and parents to immediately report potentially violent incidents, bullying, or harassment to teachers, leaders, or any other adult.

Each of the campuses within the school provides a wealth of school safety-related initiatives. These programs may include peer mediation, bullying prevention, conflict resolution, social skills development, managing emotions and components of character education. Scholars are involved in a wide variety of safety activities through both their classes as well as through work with school counselors, social workers, and school psychologists. By October 1st of each school year, the Principal has provided written information to all scholars and staff about emergency procedures.²⁵

Each building has established a mechanism for the anonymous reporting of school violence and harassment and has communicated this to scholars and parents.²⁶

The Scholar Code of Conduct is accessible to parents and scholars and reviewed with all scholars in the beginning of the school year. During the review with scholars, bullying, discrimination, harassment and violations of the Code of Conduct, along with consequences are discussed.

All staff members are trained in recognizing and effectively dealing with these behaviors, as outlined in the Code of Conduct.

In addition, each school has a wide range of programs and supports that impact school safety. These may include offering a variety of clubs, classroom lessons, small group lessons and/or individual counseling sessions, school-wide meetings, morning meetings in classrooms, assemblies, mindfulness rooms, yoga and movement breaks, and a variety of wellness opportunities.

REPORTING THREATS OR ACTS OF VIOLENCE

Scholars, staff, parents and others are informed annually about the importance of reporting threats or acts of violence and the procedures of reporting.

The School has developed a system for reporting threats and actual acts of violence. The procedure for reporting is as follows:

- Scholars are instructed to report threats and acts of violence to staff members.
- Each school has designated a reporting process, which can be done anonymously.
- Staff members are required to report all student referrals to the administration for investigation.

²⁵ 155.17(g) By October 1 of each school year, the superintendent and chief school administrator have provided written information to all students and staff about emergency procedures.

²⁶ 155.17(c)(1)(xvi) strategies for improving communication among students and between students and staff and reporting of potentially violent incidents, such as the establishment of youth-run programs, peer mediation, conflict resolution, creating a forum or designating a mentor for students concerned with bullying or violence and establishing anonymous reporting mechanisms for school violence;

- Staff training programs meet S.A.V.E. requirements. Instruction on issues of school safety is provided to all employees each year.

TRAINING, DRILLS AND EXERCISES

Drills and Exercises:²⁷

The School will conduct emergency management drills and exercises annually including, but not limited to:

EVACUATION AND LOCKDOWN DRILLS.²⁸ Evacuation and lockdown drills will be conducted during school days at each campus within the School with staff and scholars twelve (12) times annually (September – June). The first eight (8) drills are conducted prior to December 31st of each school year. Eight of all such drills shall be evacuation drills. Four of all such required drills shall be lockdown drills. Prior to the first annual drill, staff shall review emergency response procedures and drill requirements with scholars during class time. Scholars are also provided the opportunity to ask questions on any procedure that they are not clear on. The appropriate Fire Department may, upon mutual agreement with the School, participate in some or all of the drills and offer feedback regarding effective building evacuation in the event of a fire. Four of the required drills must be through use of the fire escapes on buildings *where fire escapes are present* or through the use of identified secondary means of egress.²⁹ The appropriate Police Department may, upon mutual agreement with the School, participate in some or all of the lockdowns drills and offer feedback regarding the effectiveness of these drills. Drills shall be conducted at different times of the school day with at least one of the eight required evacuation drills occurring during a mass gathering event such as lunch or assemblies. Instruction in drill procedures, including during lunch periods and assemblies, is conducted annually by staff.³⁰ At least two additional drills must be held during summer school in buildings where summer school is conducted, one must be held during the first week of summer school.³¹

Prior to the commencement of each school year, the Building-Level Emergency Response Team shall conduct an inventory of any special needs scholars. Appropriate accommodations for the school year will be incorporated into each Building-Level Emergency Response Plan.

²⁷ 155.17(c)(1)(xiv) procedures for review and the conduct of drills and other exercises to test components of the emergency response plan, including the use of tabletop exercises, in coordination with local and county emergency responders and preparedness officials;

²⁸ EL §807.1 eight evacuation drills and four lock-down drills each year, eight of the required drills must be completed by December 31 each school year

²⁹ EL §807.1 four of the required drills must be through use of the fire escapes on buildings where fire escapes are provided or through the use of identified secondary means of egress

³⁰ EL §807.1 Pupils shall be instructed in the procedure to be followed in the event that a fire occurs during the lunch period or assembly

³¹ EL §807.1-a at least two additional drills must be held during summer school in buildings where summer school is conducted, one must be held during the first week of summer school.

EARLY DISMISSAL DRILL³²: The School will conduct an Early Dismissal drill annually wherein scholars are dismissed no more than 15 minutes before the normal dismissal time. Parents will be notified of these drills at least one week prior. Transportation Officials and School staff may also take place in conducting and evaluation of this drill. This drill also allows the School to test the usefulness of the communications and transportation system during emergencies.³³

SHELTER-IN-PLACE AND/OR LOCKOUT DRILLS: While not required, each campus in the School may conduct Shelter-in-Place and/or Lockout drills in addition to those drills required by New York State regulation. The appropriate Police Department may, upon mutual agreement with the School, participate in some or all of the drills and offer feedback regarding the effectiveness of these drills.

In addition to post-drill debriefings conducted by each building-level emergency response team, each building will complete a drill evaluation form that will be submitted to the school-wide safety team for periodic review, which includes observations from the drill as well as any additional feedback obtained from building personnel. Changes to procedures are made as needed. The school-wide safety team should evaluate communications and transportation systems during emergencies.³⁴

Each Building-level Emergency Response Team and representatives of the School administration engage in tabletop exercises facilitated by the school's emergency management consultant. Emergency response agencies are encouraged to participate in these exercises. The school may opt to conduct functional exercises with emergency response agencies to involve staff, scholars and parents in realistic drills. The school board will ensure that information about drills be provided in the teacher's manual or handbook.³⁵

A summary of drill procedures are detailed in each of the Building-Level Emergency Response Plans.

STAFF DEVELOPMENT TRAINING:

All general staff will receive training on School-wide procedures as well as specific procedures contained within their respective building-level emergency response plan. This training shall occur prior to September 15th of each school year or within 30 days of joining the school. This training will be conducted at a staff development day in August, online or a combination of both.³⁶

³² 155.17(h) Fire and emergency drills. Each school district and board of cooperative educational services shall, at least once every school year, and where possible in cooperation with local county emergency preparedness plan officials, conduct one test of its emergency response procedures under each of its building-level emergency response plans, including sheltering, lock-down, or early dismissal, at a time not to occur more than 15 minutes earlier than the normal dismissal time.

³³ 155.17(h)(2) Such drills shall test the usefulness of the communications and transportation system during emergencies.

³⁴ 155.17(h)(2) Such drills shall test the usefulness of the communications and transportation system during emergencies.

³⁵ EL §807.2 the school board will ensure that information about drills be provided in the teacher's manual or handbook.

³⁶ 155.17(c)(1)(xiii) policies and procedures for annual multi-hazard school safety training for staff and students, provided that the district must certify to the commissioner that all staff have undergone annual training by September 15, 2016 and each subsequent September 15th thereafter on the building-level emergency response plan which must include components on violence prevention and mental health, provided further that new employees hired after the start of the school year shall receive such training within 30 days of hire or as part of the district's existing new hire training program, whichever is sooner;

The School will provide advanced training for each Building-level Emergency Response Team (BERT) and School-wide Safety Team annually. The training will include practices and procedures to educate, evaluate, update and review all Emergency management protocols and procedures the teams perform including, but not limited to Lockdown, Lockout, Evacuation, Shelter-In-Place, Hold-in-Place and Early Dismissal. The School may involve local emergency responders to participate in this training.

Additional training includes but is not limited to:

- De-escalation training
- Warning signals for violence and mental health concerns
- Non-violent conflict resolution
- Student School Emergency Response Procedures Training

PROACTIVE BUILDING SECURITY MEASURES

1. The School campus buildings use limited points of entry. All doors are locked. Signs are in place directing visitors to sign-in at the reception desk at each school. Main doors are controlled by remote “buzzer” entry during normal school hours.
2. All campuses have greeters or office staff members just inside the entrance in the School. These individuals ensure visitor sign-in procedures and help supervise building traffic flow. The building principals are responsible for supervision of the greeters and other staff.
3. Staff members are required to wear visible identification badges.
4. Visitors are required to sign in and wear visitor identification.
5. Visitor access is limited to specific areas of the school building.

VITAL EDUCATIONAL INFORMATION³⁷

Information on each building’s student and staff, transportation needs, and the telephone numbers of key officials are outlined in each Building-level Emergency Response Plan. The purpose of including such information in the Building-level plan is to ensure coordination or coverage in the event of a serious incident.

³⁷ 155.17(h)(i) Except in a school district in a city having a population of more than one million inhabitants, the chief executive officer of each educational agency located within a public school district shall provide to the superintendent of schools information about school population, number of staff, transportation needs and the business and home telephone numbers of key officials of such educational agencies.

This section contains the School policy and procedure for disseminating information regarding early detection of potentially dangerous behavior.

1. A “plain language” summary of the Scholar Code of Conduct is provided to all scholars in the School at the start of every school year to ensure that all scholars understand acceptable behavior in the school setting. The Code of Conduct delineates, among other behavior, lack of tolerance for harassment, discrimination, bullying and violence.
2. A “plain language” summary of the Scholar’s Code of Conduct is mailed or emailed to all parents/guardians of scholars in the School at the start of each school year, and is disseminated at the time of registration thereafter.
3. All new employees will be provided with a copy of the Code of Conduct at the time of hire. All teachers and other staff members will be provided with a copy of the Code of Conduct annually.
4. Efforts are made on the building level at each of the campuses to identify, prevent, and resolve potentially dangerous behavior at the earliest possible stage. Teams meet regularly in each building in order to work with classroom staff in identifying and preventing potentially dangerous behavior. School counselors, school psychologists, school social workers, nurses, outside agencies (when appropriate), administrators, teachers, parents/guardians and scholars may be involved in this process.
5. School scholars at all grade levels participate in instruction guided by evidence-based violence prevention/intervention programs. Elements of these programs support scholars in identifying potentially violent or problematic situations with peers and in developing strategies to address these such as reporting to an adult.
6. Secondary health curricula incorporate information regarding emotional health, the impact of drugs and alcohol on an individual’s behavior, and on responsible decision-making.
7. Each of the School’s psychologists/social workers may facilitate counseling groups for identified scholars around issues related to poor social skills development, managing emotions, and good decision-making.
8. Certified and noncertified staff members working with scholars who have been identified by the Committee on Special Education as being at-risk for engaging in violent behaviors receive annual training in crisis prevention and intervention.

³⁸ 155.17(c)(1)(xii) policies and procedures for the dissemination of informative materials regarding the early detection of potentially violent behaviors, including but not limited to the identification of family, community and environmental factors to teachers, administrators, school personnel including bus drivers and monitors, persons in parental relations to students of the school district or board, students and other persons deemed appropriate to receive such information;

9. The School may work in collaboration with building-level and Campus-wide PTAs to offer parents/guardians information regarding early-warning signs of potentially dangerous and/or violent behavior, as well as a forum to discuss specific parental concerns.

SECTION III RESPONSE

NOTIFICATION AND ACTIVATION - INTERNAL AND EXTERNAL COMMUNICATIONS

Internal

After receiving the information from the Incident Commander at the scene, an email will be sent from the Principal to all administrators and administrative offices alerting them to the nature and status of any incident in the school. The mass communication system may be used to provide information as deemed appropriate by the Incident Commander. Portable radios will also be used when possible.

External

Anyone with knowledge of an emergency event is encouraged to immediately call 911.

The School's mass communication system will be used to provide information to parents/guardians and emergency contacts. The School website may also be used to provide updated information throughout an incident as deemed appropriate by the Incident Commander. Schools may also use their websites, groups, and hotlines for announcements or updates as directed by the Incident Commander.

When an emergency requires notification of parents and scholars, the Principal or their designee will provide updated information to parents and scholars through the emergency notification system.

Additional information may also be found on the School's website:

<https://www.storefrontacademy.org/>

During an emergency, all contact with the media will be handled either by the Principal or their designee. The media and public will be informed and updated as soon as practicable on all developments in statements released by the Principal or their designee. Scholars, staff and parents should refer all questions and requests for information to the Principal in order to assure the release of factual and current information. The Principal may refer such requests to the Public Information Officer for response.

By definition, emergency events are unforeseen and unpredictable. The safety of scholars and staff is the primary focus of all activities surrounding an emergency event. Every effort will be made to contact parents and the general public once the situation has stabilized.

SITUATIONAL RESPONSES

MULTI-HAZARD RESPONSE

Specific response procedures are sensitive in nature and therefore are contained within each confidential building-level emergency response plan.

In each emergency, the building’s administrator will contact the School office for assistance. The School office will provide support as appropriate and deemed necessary by the Incident Commander on the scene (i.e. sending additional mental health resources). The Principal or their designee will be the sole contact person for releasing information to the media and for communicating the status of the emergency with other District schools, out-of-district schools, private schools, and outside agencies.⁴⁰

4. After considering the specificity/generality of the threat or severity of the violent act, the designee will determine whether to immediately contact the Principal or the Assistant Principal to advise them of the threat, obtain assistance to determine the severity of the threat or report the violent act. The Principal will have the discretion to report minor incidents to the Principal verbally and/or in memorandum form after the situation has been resolved.

6. The building administrator will investigate reported threats of violence and will make the determination of disciplinary measures consistent with the Scholar Code of Conduct. Chronic offenders may require a behavior plan or contract, close monitoring, and/or police involvement:

RESPONSES TO ACTS OF VIOLENCE⁴³

1. The Principal or their designee will determine whether to contact law enforcement personnel. **Threats or actions placing scholars, staff and others in imminent danger require an immediate LOCKDOWN protocol followed by a call to the police and the Principal (if safe to do so).** Violent offenses defined in the S.A.V.E. regulations will also require the involvement of the police.
2. The Principal, and/or their designee then determine the appropriateness of directing the Building-level Emergency Response Team to be activated.
3. The Building-level Emergency Response Team (BERT) consisting of trained staff and school personnel may assist with an Evacuation, Lockout, Shelter-in-Place, Hold-in-Place, or Early Dismissal and will follow the appropriate protocol (see appendices for further information). The Incident Command System (ICS) under the National Incident Management System (NIMS) should be followed as closely as possible to ensure good coordination between the building-level teams, School leadership, and responding agencies.
4. If the threat of violence or danger is imminent, a Lockdown may be utilized. A Lockdown is time sensitive and therefore may be requested by any school staff member based on the incident and timely need for the Lockdown. During the Lockdown, all school staff, scholars, and visitors (including all BERT members) are required to Lockdown in the nearest lockable space and await further instruction, or in some situations, evacuate the campus.
5. Procedures for contacting parents, guardians and persons in parental relation to scholars in the event of a violent incident or early dismissal are detailed in each building-level emergency plan. The use of the School's mass communication system is typically utilized.

8. School administrators must keep records of serious threats and acts of violence and report them annually to the state.
9. Prompt contact with appropriate law enforcement officials is essential in the event of a violent incident. These relationships have been established by participation of local response officials on Building-Level Emergency Response Teams. These individuals and appropriate means of contact are documented in each Building-Level Emergency Response Plan.⁴⁴
10. The School has a zero-tolerance policy for acts of school violence.

⁴³ 155.17(c)(1)(ii) policies and procedures for responding to acts of violence by students, teachers, other school personnel including bus drivers and monitors and visitors to the school, including consideration of zero-tolerance policies for school violence;

⁴⁴ 155.17(c)(1)(iv) policies and procedureFs for contacting the appropriate law enforcement officials in the event of a violent incident;

PROTOCOLS FOR A STATE DISASTER EMERGENCY INVOLVING A COMMUNICABLE DISEASE

The following procedures provide a general overview of the School's response to a State Disaster Emergency and may require modification during an actual event based on a number of factors. The School will follow current guidance from the County Department of Health, State Department of Health and the State Education Department related to masking, distancing, quarantines, and other health-related requirements.

BACKGROUND

In September 2020, Governor Cuomo signed legislation that requires all New York State public employers to adopt a plan for operations in the event of a declared state disaster emergency involving a communicable disease. The new legislation will constitute New York State Labor Law [Section 27-c](#), and serve as a response to the effects of the sudden onset of the COVID-19 pandemic in the Spring of 2020. In addition to 27-C, the following section was added to [2801-a of the Education Law](#) that required additions to the District Plan.

Education Law - 2801-a (m) - protocols for responding to a declared state disaster emergency involving a communicable disease that are substantially consistent with the provisions of section twenty-seven-c of the labor law.

PROTOCOLS

1. In the event of a state-ordered reduction of the School's in-person workforce, the following is a list of **essential** employees.

Essential Position	Description

In the event of a state-ordered reduction of the School's in-person workforce the School will provide the opportunity for all **non-essential** employees the capability to telecommute including, but not limited to, facilitating or requesting the procurement, distribution, downloading, and installation of any needed devices or technology, including software, data, office laptops or phones, and the transferring of office phone lines to work or personal cell phones as practicable or applicable to the workplace. Storefront Academy Charter School's Staff will be guided on this as per the **Building Level Emergency Plans**, specifically the **Continuity of Operations and Continuity of Instruction** sections.

3. To the extent possible the School will stagger work shifts of essential employees in order to reduce overcrowding on public transportation systems and at worksites. Staff and scholars typically walk or drive via personal vehicle to campus. In an effort to reduce overcrowding on public transportation:

- Class schedules, if scheduled to be on site, will be staggered to a morning and afternoon cohort
 - Staff will arrive on campus prior to scholars at staggered times/work shift or/and staggered assigned days of work
 - If no scholars are in school staff will continue to have their work shift or assigned days of work staggered.
 - Most employees will be permitted to work remotely.
 - Visitors will not be permitted on campus.

- Facilities will maintain inventory of PPE as recommended by the NYS Education Department guidelines, and continually restock same as needed.
 - Storage of personal protective equipment will be on campus and comply with the manufacturer's storage recommendations for each item.
 - The equipment will be stored and readily available to any person in need of it.
5. In the event an employee is exposed to a known case of a communicable disease that is the subject of a state disaster emergency involving a communicable disease, exhibits symptoms of such disease, or tests positive for such disease, and in order to prevent the spread or contraction of such disease in the workplace the School has a set protocol to be followed for the exposure as well as the disinfecting of the affected work area(s). The School's **Building Level Emergency Plan** contains an **Infectious Disease Annex, section 25** which details:
- The disinfecting of any area known or suspected to be infected with the communicable disease as well as any common area surface and shared equipment such employee may have touched
 - Available leave options, for the affected employee(s), in the event of an employee's need to receive testing, treatment, isolation, or quarantine
- Note: Such protocol does not involve any action that would violate any existing federal, state, or local law, including sick leave or health information privacy.*
6. All essential employees will have their hours and work locations documented, including off-site visits, by:
- All entrances will be locked with guard staff posted.
 - All employees will use their access cards for entrance which documents their arrival on the premises.
 - Payroll, attendance, and time cards will further document an employee's presence on campus.
 - No other visitors will be allowed on site.

Such protocol shall be designed only to aid in the tracking of the disease and to identify the population of exposed employees in order to facilitate the provision of any benefits which may be available to certain employees on that basis.

7. If emergency housing is needed to further contain the spread of the communicable disease, the Storefront Academy Charter Schools will lodge an essential employee at a local hotel bearing the full cost of the stay.

If there is a declared state disaster emergency involving a communicable disease that involves the Storefront Academy Charter Schools, all staff, essential and non-essential, will be contacted, and they will be guided by the aforementioned protocols.

8. **OTHER:** Any other requirements determined by the Department of Health such as contact tracing, testing, physical distancing, hygiene, disinfecting, drill modifications, or mask-wearing.

The School will, as appropriate, utilize all available manpower during an emergency. Within each building, schools may use the Staff All Call response protocol, that quickly summons all available staff members to a staging area for assignments. Coordination of available employees is typically performed by the Principal or their designee. Specific job duties will be assigned based on the type of emergency and in compliance with the appropriate school and building emergency response procedure. Additional school resources may be requested by any building administrator or designee as needed. EMERGENCY REMOTE INSTRUCTION

OVERVIEW

The School may offer eLearning days to scholars in the event-of-an-emergency condition, including, but not limited to, extraordinary adverse weather conditions, impairment of heating facilities, insufficiency of water supply, shortage of fuel, destruction of a school building, or a communicable disease outbreak.

When making decisions about remote instruction, the School will consult with scholars, parents, teachers, administrators, community members, and other stakeholders as appropriate. When implementing remote instruction, the School will ensure that it is complying with applicable teaching and learning requirements.

DEFINITIONS

- A. "Asynchronous instruction" means instruction where scholars engage in learning without the direct presence (remote or in-person) of a teacher.
- B. "Non-digital and/or audio-based instruction" means instruction accessed synchronously and/or asynchronously through paper-based materials where the student to teacher interaction occurs via telephone or other audio platforms.
- C. "Remote instruction" means instruction provided by an appropriately certified teacher who is not in the same in-person physical location as the student(s) receiving the instruction, where there is regular and substantive daily interaction between the student and teacher.
 - 1. Remote instruction will encompass synchronous instruction provided through digital video- based technology and may also include asynchronous instruction intended to complement synchronous instruction. Digital video-based technology includes online technology and videoconferencing technology.
 - 2. Remote instruction may encompass non-digital and audio-based asynchronous and/or synchronous instruction where this instruction is more appropriate for a student's educational needs.
- D. "Synchronous instruction" means instruction where scholars engage in learning in the direct presence (remote or in-person) of a teacher in real time.

FORMATS AND METHODS OF REMOTE INSTRUCTION

Remote instruction may be delivered through a variety of formats and methods. Determinations about how to best deliver remote instruction will take into account a variety of factors including, but not limited to, the number of scholars involved, the subject matter, the scholars' grade levels, and technological resources of both the School and scholars. Consideration will also be given to whether accommodations need to be made for scholars with disabilities or English language learners. Each school's Building-level Emergency Response Plan will contain this confidential information in the Continuity of Instruction Plan (COIP) section.

INSTRUCTIONAL OPTIONS

The School may engage scholars in synchronous and asynchronous learning on days of remote instruction under emergency conditions with an expectation that asynchronous instruction is supplementary to synchronous instruction. When remote instruction by digital technology is unavailable, appropriate special accommodations for scholars will be made to aid their learning.

COMPUTER AND CONNECTIVITY ACCESS FOR SCHOLARS

The School will ensure that scholars have the necessary equipment at home to participate in eLearning.⁴⁷ No later than June 30th of each school year, the Principal will report to the Commissioner of Education the results of the survey on student access to computing devices and access to Internet connectivity on a form and format prescribed by the Commissioner.⁴⁸ The information received from the survey will aid in the development/updates to the detailed Continuity of Instruction Plan in each school's Building-level Emergency Response Plan.

MINIMUM INSTRUCTIONAL HOURS

Remote instruction provided on days when the School would have otherwise closed due to an emergency condition may be counted toward the annual hourly requirement for the purpose of state aid. The Principal will certify to the New York State Education Department, on a form prescribed by the Commissioner, that an emergency condition existed on a previously scheduled school day and that the School was in session and provided remote instruction on that day and indicate how many instructional hours were provided on that day and certify that remote instruction was provided in accordance with the School's emergency remote instruction plan.

REMOTE INSTRUCTION SUPPORT

As necessary, the School will provide instruction on using remote instruction technology and IT support for scholars, teachers, and families. The School will also work to ensure that teachers and administrators are provided with professional development opportunities related to designing an effective remote instruction experience.

⁴⁷ 155.17(xxi)(a) ensure computing devices will be made available to students

⁴⁸ 155.17(f)(2) Beginning in the 2022-2023 school year, each chief executive officer shall report to the Commissioner, no later than June 30 of each school year, on a form and format prescribed by the Commissioner, the results of the survey on student access to computing devices and access to internet connectivity

COMPLIANCE WITH SCHOOL POLICIES, PROCEDURES, AND THE CODE OF CONDUCT

Teachers and scholars are required to comply with any and all applicable School policies, procedures, and other related documents as they normally would for in-person instruction. Examples include, but are not limited to, the School's policies and procedures on non-discrimination and anti-harassment, acceptable use, and copyright. Scholars will also be required to abide by the rules contained within the *Code of Conduct* at all times while engaged in remote instruction. Violations of the *Code of Conduct* and/or engaging in prohibited conduct may result in disciplinary action as warranted.

PRIVACY AND SECURITY OF STUDENT AND TEACHER DATA

The School will take measures to protect the personally identifiable information of scholars and teachers from unauthorized disclosure or access when using remote instruction technologies in compliance with law, regulation, and School policy. Examples of these measures include, but are not limited to, minimizing the amount of data shared to only that which is necessary, de-identifying data, and using encryption or an equivalent technical control that renders personally identifiable information unusable, unreadable, or indecipherable to unauthorized persons when transmitted electronically.

SECTION IV COMMUNICATION WITH OTHERS

SECTION V RECOVERY

CONTINUITY OF OPERATIONS

This School maintains continuity of operations at both the school and building level to ensure that essential functions continue during an emergency and its immediate aftermath. Essential functions include business services (payroll and purchasing), communication (internal and external), computer and systems support, facilities maintenance, safety and security, and continuity of instruction. Specific continuity plans are contained within each Building-level Emergency Response Plan.

CONTINUITY OF INSTRUCTION

The School offers a suite of online instructional tools that can be used to support remote instruction and communication. General instructional tools for communicating with scholars include online services including:

- Google Drive with shared folders
- GSuite (Docs, Sheets, Slides, Forms, Classroom, Sites)
- Gmail
- Edmentum-Exact Path

Detailed grade-specific remote instructional procedures are contained within each building-level emergency plan.

Note: The local public Library online resources are available remotely and can be accessed by scholars who have a library card.

SCHOOL SUPPORT FOR BUILDINGS

When the Chief Emergency Officer is notified that an emergency exists, he/she will respond accordingly.

Members of the School Safety Team will assist as needed either at their respective Building Command Posts or by responding where directed by the Incident Commander(s). The School Safety Team will assign such other personnel as deemed necessary to meet the needs of the situation.

The School Safety Team members will remain at their assigned posts until the Incident Commander(s) has determined that the emergency is over, or it is unsafe, or no longer necessary to remain, or need to relocate.

Should the incident involve a single building, at the discretion of the School Safety Team leader in consultation with that building's administrators and Building Emergency Response Team (BERT), other school buildings may be called to support the Building Emergency Response Team in that building.

Should the incident involve multiple buildings, at the discretion of the School Safety Team leader, in consultation with building administrators, additional mental health support from the County Crisis Team

and local area hospitals may be solicited to support the Emergency Response Teams in the affected building(s).

In any case, a “debriefing”, or post-incident analysis, will be facilitated by the School Safety Team. This process will include a review of the actual incident, the Team’s response to the incident, and post-traumatic incident debriefing.

School clinicians (or, mental health professionals from outside agencies if they have been involved) will provide ongoing as-needed support to the Team members, and will monitor post-traumatic stress symptoms in team members. As appropriate, team members may be provided with a referral to EAP and/or with information regarding private mental health providers in the area.

Principal(s) are expected to consult with the School Public Information Officer in composing letters to parents following any emergency. The School’s Public Information Officer will assist in sending mass communication messages to affected groups. The School’s Liaison Officer will communicate with outside agencies, such as the County Health Department, to provide necessary services following any emergency.

DISASTER MENTAL HEALTH SERVICES

The School Liaison Officer will communicate with outside agencies, such as the County Health Department, to provide necessary mental health services following any emergency. School mental health providers may be temporarily reassigned to assist in the recovery process.
